

Expatriation Policy for Foreign Professionals in The Netherlands

Premium and coverage overview

Information for the expat

Who we are...

Geert Bouwmeester was only 22 years old when in 1924 he started his own company. A small space was converted into an office. The first policies were distributed by bike, a traditional Dutch mode of transport. Since then our company has gone through exponential growth and therefore a lot has changed. Despite our present size we are still an independent family business that has kept its entrepreneurial spirit.

Insurances for entrepreneurs

Our focus is on supplying insurance solutions for entrepreneurs. Men and women who work hard at achieving success for their companies, who seek security and convenience. And who are looking for good and practical insurance solutions for each phase of their entrepreneurship.

Independent advisors

Our society is becoming more and more complex. Both individuals and entrepreneurs have the need for advice given by third parties who know their specific requirements and can advise them accordingly. Therefore, we work closely with independent brokers, who like no other are capable of providing the right customized solution.

6.5 Please note

Most claims under insurance policies are only made after the damage has occurred and then compensation is paid afterwards.
