Who we are...

Geert Bouwmeester was only 22 years old when in 1924 he started his own company. A small space was converted into an office. The first policies were distributed by bike, a traditional Dutch mode of transport. Since then our company has gone through exponential growth and therefore a lot has changed. Despite our present size we are still an independent family business that has kept its entrepreneurial spirit.

Insurances for entrepreneurs

Our focus is on supplying insurance solutions for entrepreneurs. Men and women who work hard at achieving success for their companies, who seek security and convenience. And who are looking for good and practical insurance solutions for each phase of their entrepreneurship.

Independent advisors

Our society is becoming more and more complex. Both individuals and entrepreneurs have the need for advice given by third parties who know their specific requirements and can advise them accordingly. Therefore, we work closely with independent brokers, who like no other are capable of providing the right customized solution.

2 Medical expenses

2.1 Coverage

There is a maximum reimbursement

For insured persons aged up to 66 years a maximum insured amount applies of € 2.000.000,- per event (illness).

In the regions C and D (the regions are described under 2.2 Annual premiums) a lower maximum insured amount applies for congenital defects of € 1.000.000,- per event (illness). This only applies to children who were born after the inception date of the insurance.

For insured persons from the age of 67 a lower maximum insured amount applies of:

- € 100.000,- per insured person per event (illness);
- € 150.000,- per insured person in the event of an accident;
- € 150.000,- per insured person per event (illness) in the United States.

Did a treatment commence before the insured turned 67? And is this treatment continued after the 67th birthday? Then the lower maximum applies for that part of the costs incurred from the 67th birthday onwards.

After the 72nd birthday, the coverage is no longer extended. The cover therefore ends between the 72nd and 73rd birthday. The exact date of termination is the contract renewal date of the insurance (see the policy schedule).
